EDUCATION

- **Manipal Institute of Technology, Manipal** *July 2023 – 2027*
Bachelor of Technology in Computer Science and Engineering **GPA: 9.58/10**
- **Cambridge Court High School, Jaipur**
 - **Class XII** — Passed in 2022 **94.8%**
 - **Class X** — Passed in 2020 **94.2%**

EXPERIENCE

- **Software Development Engineer Intern** *May 2026 – Present*
Western Digital (WD)
 - Currently contributing to software development projects and collaborating with engineering teams on product and platform initiatives.
- **Summer Research Internship** *June 2025 – July 2025*
Manipal Institute of Technology, Dept. of CSE
 - Built a Random Forest-based sleep apnea detection model with 94% accuracy.
 - Used SHAP and LIME to interpret 1000+ predictions across 20+ features.

TECHNICAL SKILLS

Languages: C/C++, Java, Python **Databases:** PostgreSQL, MySQL **Key Concepts:** ML, CN, OS, DSA, OOP, DBMS

PROJECTS

- **Lost and Found Web Application** — Built a full-stack platform where users can upload photos and descriptions of found items. Integrated an **ML-based item similarity classifier** and stored entries in a PostgreSQL database. Implemented secure user login, item search, and an **in-app real-time chat system** enabling users to communicate without sharing personal contact details. Designed an admin workflow to verify matches and finalize requests, with completed cases automatically removed from the database.
- **Sleep Apnea Detection using Machine Learning** — Developed and compared Random Forest and Logistic Regression models on tabular health data, achieving a **94%** success rate. Performed feature engineering and explained predictions using **SHAP** and **LIME** for model interpretability.
- **Sudoku Solver using OpenCV and Image Processing** — Created a solver that detects Sudoku grids from images, extracts digits using **OCR**, and solves the puzzle using backtracking.
- **Book Store Management System** — Built the backend of a full-stack bookstore app using PostgreSQL, managing 100+ books with schema design, procedures, triggers, and authentication logic.

ACADEMIC ACHIEVEMENTS

- Awarded the prestigious **Diamond Jubilee Award** for securing the highest rank in my branch during the first year.
- Awarded the **Achievers' Scholarship** twice for outstanding academic performance including securing **2nd** rank across all branches in first year, out of **2,564** students.
- Received a **Merit Certificate from CBSE** for being among the top **0.1%** scorers in Mathematics nationwide in Class X.
- Secured an **International Rank of 13** and a **Zonal Bronze Medal** in the **International English Olympiad (IEO)** in Class XI.

POSITIONS OF RESPONSIBILITY

- **Membership Chair, ACM (Executive Committee)** *July 2025 – Present*
Manage a 700+ member chapter and oversee all annual club activities and major technical events.
- **Class Representative** *Jan 2025 - Present*
Represented and coordinated academic communication for a class of 90 students, acting as a liaison between faculty and peers.
- **Student Coordinator, Students' Placement Office** *Dec 2023 – Dec 2024*
Established and maintained corporate relations to support internships and placement opportunities.
